CORDLESS TOOL

for chemical anchor in 380 to 410-ml coaxial cartridges

art. CP30 – KIT CASE

- 1 tool
- 1 Li-ion 14.4 V - 3.0 Ah battery
- 1 battery charger

power	14.4 V - 3.0 Ah Lithium ions (Li-ion) battery
performance	38 380-ml cartridges with a completely charged battery at room temperature
speed	120 to 240 mm/min
extrusion force	7500 N (750 kg)
charging time	40 min
weight	3.1 kg tool 6.1 kg complete case
dimensions	length 390 mm

- Continuous and clean work
- Processing of high viscosity adhesives with less fatigue
- High efficiency rack transmission
- Anti-drip auto reverse – immediate pressure release at release of trigger; prevents product dripping
- Adjustable speed – easily controls caulk flow
- 14.4 V Li-ion rechargeable battery – no memory effect, low self-discharge rate, long life span
- Fast release of piston for easy cartridge change
- Ergonomic handle – designed for comfortable long use
- Wrist strap attachment – prevents tool fall
- Extrudes up to 38 380-ml coaxial cartridges of chemical anchor with a completely charged battery
